

# ROD RAYMOND

## Full Stack Software Engineer

rod.raymond67@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

I am a Multilingual Project Manager turned Full Stack Developer with a curiosity to learn and a drive for new experiences. My international background and my love for languages has provided me with the skills to communicate effectively in diverse environments and solve problems efficiently.

### SKILLS:

HTML | CSS | Javascript | Ruby | NodeJS | React | React Native | ExpressJS |  
Bootstrap | Ruby-On-Rails | MongoDB | PostgreSQL | Git | GitHub | Postman | Microsoft | Adobe | AutoCAD

### PROJECTS:

- [L.A.G.A](#) | group project  
L.A.G.A is a website for finding full-stuck materials. This web application is a great resource for bootcamp graduates and developers alike who are looking to further their knowledge.  
**Language:** Javascript, CSS, HTML, Tailwind CSS, **Deployed with:** Heroku
- [WePay](#) | individual project  
WePay is a web application for online commerce. It's a place where you post items for sale and other users will be able to place bids. This application uses authentication in order to bid and post items for sale.  
**Language:** Javascript, Ruby-on-rails, TailwindCSS, HTML **Deployed with:** Heroku(back-end),  
netlify(front-end)

### EXPERIENCE:

#### General Assembly | Software engineering Immerse | Remote | Nov 2021 – Mar 2022

- Successfully completed 500+ immersion coding in various languages such as Javascript and Ruby
- Deep understanding of object-oriented programming and software engineering fundamentals
- Hands on learning of fundamentals and industry's most in demand technologies.
- Solved a multitude of test algorithm in two different languages (Javascript and Ruby)
- Worked on 3 individual projects and one group project. All delivered and fully deployed

#### Edouard Engineering PLLC | New York City, NY | Jan 2018- Jan 2020

##### Project Manager

- Managed up to 6 projects quarterly with budgets ranging from \$10,000 dollars to \$2M dollars.
- Collaborated with Architectural firms and building contractors on project proposals and scheduling.
- Reviewed mechanical, electrical and plumbing drawings and conducted site visits for energy compliance and state/city code compliance using AutoCAD software.
- Ensured that documents were accurately reported to clients, bringing attention to cost estimates, budgets' allocation and change orders, including client invoices.

#### Cayo Properties LLC | New York Metro Area | June 2015 - 2018

##### Residential Real Estate Analyst/Data Developer

- Developed and maintained data models/algorithms in excel to support Real Property projects such as property assessments, are risk analysis, occupant retention and eviction. This provided clear and detailed analysis to the acquisition team on projected returns on investment for the desired properties.
- Conducted research on property acquisition promotion effectiveness, search auctions, MLS database, machine learning predictions and forecasting and market rental pricing.
- Coordinated with roofers, electricians, plumbers and contractors on 5 rental renovation units.

### EDUCATION:

#### General Assembly | NYC | Nov 2021 - March 2022

Software Engineering Immersive

#### The City College of New York CUNY | Spring 2018

BS Economics/ Theater Minor |
